

Priya Nair
Frontend Software Engineer
priya.nair@example.com | Bengaluru, India

SUMMARY

Frontend engineer with a focus on accessible, well-tested user interfaces.
Six years building consumer-facing web applications.

SKILLS

React, TypeScript, Next.js, Jest, Playwright, CSS/Tailwind, Storybook

EXPERIENCE

Senior Frontend Engineer, Harborlight Media (2021-Present)

- Led the migration of the main web app from class components to React hooks and TypeScript, removing over 5,000 lines of legacy code.
- Introduced Playwright end-to-end tests, catching regressions before release for the first time in the product's history.
- Improved Lighthouse accessibility score from 68 to 96 across the app.

Frontend Engineer, Ridgeline Software (2018-2021)

- Built a component library in Storybook adopted by three product teams.
- Wrote Jest unit tests for critical checkout flows, reducing production bugs reported per release by 30%.

EDUCATION

B.Tech Computer Science, IIT Bombay
