SUMMARY

BI engineer with 6 years designing data pipelines and reporting infrastructure for finance and operations stakeholders.

SKILLS

SQL, Tableau, Power BI, data pipelines, dbt, data warehousing

EXPERIENCE

BI Engineer, Torretta Financial Group (2020-Present)

- Built dbt-based data pipelines feeding a Snowflake warehouse, cutting nightly reporting refresh time from 4 hours to 40 minutes.
- Migrated legacy Power BI reports to Tableau, standardizing the company's reporting stack on a single platform.
- Wrote and optimized SQL transformations used across finance and operations dashboards.

Reporting Analyst, Vallesecca Group (2017-2020)

- Maintained Power BI dashboards for regional sales reporting.
- Wrote SQL queries to reconcile discrepancies between source systems and the reporting warehouse.

EDUCATION

B.Sc. Management Engineering, Politecnico di Milano
